

## Install Marvell Driver to Mac OS 10.14.x (Mojave)

## Introduction:

If you have updated the Mac OS, please install the driver and Marvell Software Utility (MSU) into your Mac again. Otherwise, the Mac OS and MSU will not recognize your Stardom product.

Note : The Mac OS 10.14.x (Mojave) version does not allow 3rd Party Apps to be installed by default. Please set "Security & Privacy" to allow 3rd Party Apps to be installed before installing, and please set them to allow again during installation of driver and MSU.

## The Steps to install the driver:

Step-I: Please open the "Security & Privacy"

- A. Please click the Apple icon;
- B. Then, please click the "System Performance";

Page-1/4

Step-II: Please set the "Security & Privacy" to allow apps downloaded from "App Store and

identified developers"

A. Click the lock icon;

•••	< > III	Security & Privacy	Q Search
